

Appl. No. 09/662,532  
Amdt. dated Sept. 2, 2004  
Reply to Office Action of June 14, 2004

Amendment to the Abstract:

Cancel the abstract, as originally filed, and substitute therefor the replacement abstract enclosed on a separate sheet at the end of this paper.

Attachment: Replacement Sheet

ABSTRACT TO THE DISCLOSURE

In a computer network, a process for discovering  
devices in the network, including network phones, and  
constructing a topological map of the network; and  
associated apparatus for retrieving an icon relating to the  
5 phones and displaying the map including the phones therein.
